

Announcement

A congress of the Deutsche Gesellschaft für Kybernetik (DGK—German Society for Cybernetics) will be held in Berlin from April 5 to April 9, 1970. It is the intention of the conference to give a general view of the new results of cybernetic research in Germany and abroad. The following groups of topics are provided:

1. General theory and history of cybernetics.
2. Pattern recognition by biological and technical systems.
 - (a) Visual patterns.
 - (b) Acoustical patterns.
3. Pattern-generating biological and technical systems.

The chairman of the Paper Committee is Professor Dr. O.-J. Grüsser (Physiologisches Institut der Freien Universität Berlin). The meeting will be sponsored by the Elektrotechnischer Verein Berlin im VDE.

Programs and forms of application will be available in December 1969 and may be ordered from the Elektrotechnischer Verein Berlin im VDE, Bismarckstraße 33, D-1 Berlin 12 (F.R. Germany).
